

Colorectal cancer is the second leading cause of cancer deaths in NYC, although it's one of the most preventable through Colonoscopy screenings.

If you are over 50 or have a family history of colorectal cancer you should be tested.

Make an Appointment to be Tested Today!

The doctors of Great South Bay Endoscopy Center are launching a Community Outreach Program with the goal of making colorectal cancer screening available to all segments of our community to save lives!

We will accept patients for colorectal cancer screening who have private health insurance, Affordable Care Act insurance, Medicare, Medicaid or **no insurance**.

Those who are uninsured and do not have the ability to pay will be screened with a colonoscopy free of charge.

We accept non-insured patients, pre-screened financially and medically, for the **Colorectal Cancer Screening Community Outreach Program.**

We will also accept uninsured patients without the ability to pay from referring doctors and clinics.

The doctors of Great South Bay Endoscopy Center are dedicated to saving lives. Call our physicians' office for an appointment or for more information today.
The physicians of Great South Bay Endoscopy Center stand ready to serve you.
