

## **Bowel Preparation Instructions – Nulytely**

**Any questions please call (631)-289-0300 ext. 224.**

### 3 DAYS PRIOR to the PROCEDURE:

---

- Do not eat foods high in fiber.
- Examples are whole grain breads and cereals, fruits, nuts, seeds, quinoa, popcorn, and cooked or raw vegetables.
- Do not take any fiber supplements.

### On the DAY BEFORE Your PROCEDURE:

---

#### DIET

- Consume only clear liquids the entire day before
- Okay to consume one protein shake, before 11 am, but only from the following lists:
  - Protein powder mixed with water or milk
  - Pre-made Protein shake
  - AVOID FRUIT or VEGETABLE shakes.
- Clear beef or chicken broth
- Popsicles, except for red, purple or blue
- Coconut water (NOT coconut milk)
- Strained fruit juice such as apple or white grape juice
- Coffee and tea (without cream or dairy products)
- Gatorade
- Soft drinks
- Kool-Aid
- Jell-O
- Do not drink alcohol

At 11 AM: Begin Drinking ONLY clear liquids. NO MORE PROTEIN SHAKES

A clear liquid is one that can you see through.  
Examples of clear liquid are as follows:

#### PREP – Procedure before 9am

**9am - Mix your laxative:** Add drinking water to top of indicated line on the laxative bottle. If adding flavor, empty a packet into the container now. Cap the bottle and shake to dissolve. Refrigerate.

**6pm – 2 tablets of Senna**

**7pm – start drinking NuLytely/Gavilyte-C/Golytely®:**

- Start drinking 8 oz of the laxative mixture every 15 minutes until the entire container is gone.
- Starting at midnight, you may have nothing by mouth, including water
- *Drink plenty of clear liquids during and after bowel-prep process to help prevent dehydration*

### On the Morning/Day of your PROCEDURE

---

- If you take daily medication(s), you may do so up until 2 hours before your scheduled report time with small sips of water.
- If you take blood thinners, follow the instructions your health care provider gives you.
- Arrange for a ride home. You will be drowsy after the exam and will need an escort, 18 years or older. If taking a medical cab service, you will need an escort as well to take you home.

#### **The importance of a GOOD PREP**

Your prep is one of the most important parts of your colonoscopy. Without a good prep, your bowel empty and clean, your gastroenterologist will not be able to see your colon clearly. This could lead to missing a polyp/lesions or rescheduling your colonoscopy.

## PREP – Procedure 9am or later

**9am - Mix your laxative:** Add drinking water to top of indicated line on the laxative bottle. If adding flavor, empty a packet into the container now. Cap the bottle and shake to dissolve. Refrigerate.

**6pm – 2 tablets of Senna**

**7pm – start 1st Dose of NuLytely/Gavilyte-C/Golytely<sup>®</sup>:**

- Start drinking 8 oz of the laxative mixture every 15 minutes until 3/4 the entire container is gone.
- *Drink plenty of clear liquids during and after bowel-prep process to help prevent dehydration*

---

On the Morning/Day of your PROCEDURE

---

**6am – start 2nd Dose of NuLytely<sup>®</sup>:**

- Start drinking final quarter of the laxative mixture: drink 8 oz every 15 minutes until the container is empty. Be sure to finish drinking all of the laxative by 7am.
- If you take daily medication(s), you may do so up until 2 hours before your scheduled report time with small sips of water.
- If you take blood thinners, follow the instructions your health care provider gives you.
- Arrange for a ride home. You will be drowsy after the exam and will need an escort, 18 years or older. If taking a medical cab service, you will need an escort as well to take you home.
